## ULTRA-SHORT-ACTION FIREARM FOR HIGH-POWER FIREARM CARTRIDGE

## ABSTRACT OF THE DISCLOSURE

A short-action firearm has a chamber and bolt assembly with unique pressure, length and diametric relationships. The overall length of the chamber has a ratio to a diameter thereof, at a predetermined location on a wide portion of the chamber, of no more than about 3.5. Such diameter is at least about 0.53 inch, and the length of the wide portion of the chamber has a ratio to such diameter of no more than about 3.
